

SUBJECT: 31GB SERIES OBSOLESCENCE

27th October 2020

Dear Valued Customer,

We would like to inform you that Amphenol Limited will no longer accept any orders for the following 31GB series part numbers from 31st December 2020.

This series has reached the end of its life span and due to a lack of orders has led to issues with component supply making the series commercially non-viable and significantly increasing lead-times.

We have identified affected items and a list is attached to this notification. If you would like to find more information please contact your customer service contact or alternatively send an email to info@amphenol.co.uk with the title “**31GB Series Obsolescence**”.

To mitigate any issues this may cause you we are offering a last time buy option; if you would like to take advantage of either of these options please contact your customer service contact or alternatively send an email to info@amphenol.co.uk with the title “**31GB Series Last Time Buy**”.

We apologise for any inconvenience this may cause.

Regards,

Chris Morgan
Product Manager
