Subject: Change of CAGE CODE for Amphenol India factories

The National Codification Bureau (NCB) India/ Directorate of Standardisation (DoS) has attained Tier-2 member nation status in Allied Committee 135 (AC/135), in compliance with the NATO Codification System (NCS). Therefore, all the Commercial and Government Entity (CAGE) codes allotted to Amphenol Interconnect India Pvt Ltd entities (A.I.I.) are changing to the standardized NATO CAGE (NCAGE) codes.

A.I.I. has updated its SAM Registration with the new CAGE code for both the Amphenol India Pune and Amphenol India Bangalore. DLA and NAVAIR have been notified of this change. There is no change to QPL status as a result of this CAGE code change. All products manufactured after Date Code 1940 will reflect the new CAGE code designation.

Factory	Old CAGE Code	New CAGE Code	Supported QPL Products	Slash Numbers
Amphenol Interconnect India Pvt Ltd, 105, Bhosari industrial Area, Pune -411026, INDIA	SF116	1433Y	MIL-DTL-24308	M24308/1,2,3,4,5,6,7,9,23,24
			MIL-DTL-55116	M55116/1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14

Frequently Asked Questions

1) Will this change of CAGE code affect the QPL status of these locations?

Ans: No, this change does not affect the QPL

2) Will the marking of the parts change?

Ans: if the part currently marked with CAGE code that will be replaced with new CAGE code. If the current marking does not include a CAGE code, then marking after date code 1940 will include new CAGE code

3) What will happen to my current inventory with the old CAGE code after this change?

Ans: All products shipped prior to this change are good and valid.

4) How can I validate the part is not counterfeit when receiving parts marked with the old CAGE code?

Ans: Verify the manufacturing date code (YYWW). Parts manufactured from date code 1940 or later should have new CAGE code.

5) What will happen to my open orders, which have schedules beyond the 1940 date code?

Ans: Parts manufactured prior to 1940 date code will have old CAGE and all shipments after that will reflect new CAGE code.

6) Will this attract any additional Tariffs?

Ans: No, tariffs are not affected by this change.

7) Will you accept special requests to mark with the old cage code after the change?

Ans: No, we won't mark or create documents with old cage codes after the change
