

Amphenol offers a line of commercial junction modules that perform to the M81714 electrical and mechanical standards. These modules are labeled with the commercial part number only. These are non-QPL parts.

Series I Commercial Junction Modules

Feedback, Feedthrough & Bussing Modules

Electronic Modules

Ground Modules

Single & Dual In-Line & Electronic Splices

Mounting Tracks

Series I Commercial Terminal Junction Modules are robust, reliable and performs to M81714 electrical and mechanical standards. Offered in various types and configurations: Feedback/Feedthrough, Electronic, In-Line Splice, and Ground, Series I Commercial Terminal Junction Modules use standard M39029/1 pin contacts. Mounting rail and installation/termination accessories are available and customization is always an option.

Series II Commercial Socket Junction Modules

Feedback, Feedthrough & Bussing Modules

Board Mount Modules

Ground Modules

Sealed Splices

Mounting Tracks

Series II Commercial Socket Junction Modules are robust, reliable and performs to M81714 electrical and mechanical standards. Offered in various types and configurations: Feedback/Feedthrough, Electronic, In-Line Splice, and Ground, Series II Commercial Socket Junction Modules Series II uses M39029/22 socket contacts pin contacts. Mounting rail and installation/termination accessories are available and customization is always an option.

Series I Commercial Families (Non QPL)

TJM	Size 12, 16, 20	Performs to M81714 Style /1, /2, /3, /4, /6, /7, /8, /9
TJE	Size 12, 16, 20 Electronic	Performs to M81714/26, /25 electrical and mechanical standards
TJHD	Size 22 Electronic	Performs to M81714 Style /17
TJT	Tracks	Performs to M81714 Style /5, /10, /16 (light weight)
TJF	Flange Ground	Performs to M81714/28 electrical and mechanical standards
TJG	Stud Ground	Performs to M81714/27 electrical and mechanical standards
TJS	Single & Double Splices	Performs to M81714 Style /11, /12
TJSE ¹	Electronic Splices	Performs to M81714 Style /21, /23, /24

Series II Commercial Families (Non QPL)

SJM	Modules	Performs to M81714 Style /61
SJE*	Electronics	Performs to M81714 /62 electrical and mechanical standards
SJT	Metal Track	Performs to M81714 Style /67
SJTC	Composite Track	Performs to M81714 /67 electrical and mechanical standards
SJG	Ground Modules	Performs to M81714 Style /63
SJS	Single & Double Splices	Performs to M81714 Style /65
SJP	Board Mount	Performs to M81714 electrical and mechanical standards

*** Notes:**

- Electronic coverage includes: Resistors, capacitors, fuses and diodes
- The TJE, SJE and SJTC families have always been commercial parts that perform to the M81714 electrical and mechanical standards.
- Many of the TJSE family members have always been commercial parts that perform to the M81714 electrical and mechanical standards. Exceptions are noted in the List of Commercial Junction Modules with MilSpec Equivalent table.
