

# IN-FLIGHT ENTERTAINMENT SOLUTIONS

## Amphenol Pcd

Technology in consumer electronics leading customer demand in the sky.

### Wireless Charging

Powerful, lighter weight devices with fewer cables and ports for a wireless charging experience.

### 100 W USB C Charger

Charge more powerful devices with a light weight and convenient USB cable, meeting the 240W USB-C standard.

### Bluetooth LE Audio

Connect to an unlimited number of devices using less power with LE-Audio.

### Higher Power SmartPIM

Complementary to the new USB-C module, redesigned internal electronics allow for high powered SmartPIM products.

### Circular MagJack

360° rotating Circular MagJack for continuous connection at any angle. Pins are installed on the jack side and pull up through the surface to mate with the magnetic connector on headphones.
